\* Suggested for shorter list beginner/advance beginners

Special Thanks to Ellie Holsopple for sharing this list. This isn't "all the tunes fit to share", but chances are if you learn some of these, you won't be the only one playing!

**Getting the most out of your classes:** Don't forget to bring a tape deck with batteries or music paper to the fest, you'll want to get down things to work on long after the fest is over. It's a great opportunity to get down pieces during jams and classes. **It is not permissible to record concerts.**
